EXPERIENCE

Logikco - Product Designer, Taiwan/ US (Remote) Feb 2023 - Present

- Business Impact & AI Strategy: Secured a $1.6M+ US state government contract by architecting an AI-augmented design workflow. Leveraged LLM tools to automate complex information architecture mapping and professional UX writing, slashing the conceptualization phase by 50% and delivering a high-fidelity, competitive proposal within a 48-hour sprint.
- Design System & Scalability: Established a Unified Design Language by architecting a scalable System using Blazor and Telerik UI; implemented a centralized component library that served as the Single Source of Truth (SSOT), ensuring 100% UI consistency across cross-platform management tools while increasing frontend development efficiency by 30%.
- Accessibility & Compliance: Spearheaded the redesign of a high-security investigation system for the US government. Achieved strict WCAG 2.2 AA compliance by conducting rigorous heuristic evaluations and accessibility audits, effectively mitigating legal risks and ensuring an inclusive experience for diverse user groups.
- Agile Leadership & Process Optimization: Reduced product development lead time by 25% by implementing Agile/Scrum methodologies. Acted as the primary bridge between US stakeholders and local engineering teams, standardizing design-to-dev handoff documentation and reducing design-related revision cycles by 40%.

WormHole Tech - Product Designer, Taiwan Nov 2021 - Feb 2023

- Market Impact & Product Recognition: Secured 10+ strategic MOUs and generated 650K NTD in initial profits by designing high-impact product demos and partnership-focused sales kits. This strategy led to a nomination for the Robotic Intelligent Systems Excellence Award, validating the product's market fit and visual appeal.
- International Brand Strategy: Orchestrated the visual strategy and interactive interface design for the K-Show exhibition in Germany. Successfully translated complex robotic industrial data into intuitive visualizations, elevating the brand's international presence and facilitating successful entry into the European market.

Freelance Projects - Product Designer Feb 2023 - Present

- Delivered full-cycle UI/UX solutions for diverse clients, including e-commerce platforms and corporate identity websites, focusing on conversion rate optimization and brand storytelling.
- Orchestrated the end-to-end design of a Music-Social App prototype, covering initial user research, persona definition, and high-fidelity interactive prototyping to validate product-market fit.

EDUCATION & CERTIFICATIONS

PMP® (Project Management Professional), PMI Nov 2024 - Present

- Expert in Agile/Hybrid frameworks, ensuring seamless cross-functional delivery and project alignment.

Asia University - Creative Product Design (BA), Taiwan Aug 2015 - Jun 2019

- Red Dot Design Award Finalist; specialized in Design Thinking and user-centered research methodologies.

SKILLS

- **Design:** Figma (Expert), Design Systems, Prototyping, User Research, WCAG Compliance, Information Architecture, Maze, Miro, Adobe Creative Suite.
- **Technical:** Blazor/Telerik UI, HTML/CSS, JavaScript, Git/GitHub, VS Code, Basic Python & C#.
- **Languages:** Fluent in English (Business Writing & Technical Demos), Native Mandarin.
